BRIDGEWAY ASSET PROTECTION PLAN™

MAXIMUM ASSET PROTECTION

Legally | Quickly | Conveniently | Inexpensively | Anonymously

We Now Live In A Litigious Society

What does that mean to you?

Without Asset Protection YOU Could Suddenly Lose Everything

Under the U.S. legal system, the deck is stacked in favor of the Plaintiff and against the Defendant. Many lawyers now specialize in contingency fee lawsuits in which they are paid a percentage of whatever they win for their clients. This encourages the filing of frivolous lawsuits. Since a new lawsuit is filed every two seconds, the average business owner or professional person stands a chance of being sued numerous times in his or her lifetime. Any suit, no matter how apparently worthless, could result in a ruinous judgment from any of the following:

- A negligence or injury claim, whether justified or not, that exceeds any insurance coverage you may have
- Breach of contract through no fault of your own
- A professional malpractice suit
- Lawsuit from disgruntled business partners or employees
- Huge fines for violation of state or federal law because of the actions of an employee
- Loan guarantees
- Claims from creditors should your business fail
- Catastrophic medical bills
- Seizure of your home or other assets prior to due legal process by U.S. Customs or other government agencies with forfeiture power – The Patriot Act
- A huge tax bill and escalating penalties following an IRS audit
- Divorce

JUDGMENT-PROOF YOUR ASSETS TO AVOID RUINOUS LAWSUITS

The first step in becoming judgment-proof is to move your assets out of your personal ownership. One of the best ways to do this is to transfer your money, investments, vehicles, property and other assets into an offshore corporation. This is a legal entity that you control. Lawyers for plaintiffs will generally only initiate litigation when they believe it will pay off, not against judgment-proof defendants. The best way of getting a plaintiff's lawyers to accept a token settlement is to convince the lawyers that your assets are truly beyond their reach.

By forming an offshore International Business Company you create a legal entity to hold assets, do business and shelter the identity of the beneficial owners. None of the investigative agencies which help trial lawyers, ex-spouses, ex-business partners and creditors locate the wealth of defendants they want to sue will be able to find these private accounts and assets. This makes you a very poor prospect for a lawsuit.

Live A Life Of Asset Protection And Peace Of Mind!

For Onshore Protection You Need Offshore Protection

Who Should Have a Bridgeway International Business Company™ (IBC)?

- Anyone who is the potential target of a lawsuit
- Anyone protecting cash
- Anyone potentially facing a costly divorce
- Anyone with a high net worth
- Anyone needing to separate high-risk investments
- Anyone protecting real estate
- Professionals working abroad
- Companies selling products abroad
- Professionals and small business owners
- Individuals who need to keep their affairs private
- Holders of copyrights, patents, or trademarks
- Anyone wishing to buy securities or precious metals not available to U.S. citizens

WHY TAKE A CHANCE ON LOSING EVERYTHING?

Most people are blissfully unaware of their financial peril and haven't taken wise steps to safeguard their assets.

Most people DON'T realize how easily all your possessions can be seized in a judgment. You can very easily lose your home, cars and everything you now own in a lawsuit or family dispute. In the simplest terms, Asset Protection is the proven set of legal

strategies and tools that safeguard your

material possessions from lawsuits and seizures, allowing you to keep everything you've worked so hard for.

Bridgeway Financial provides our clients proven Asset Protection strategies.

PROTECT YOUR ASSETS NOW BEFORE A LAWSUIT HAPPENS

An asset is not vulnerable if it is not held in your personal or business name. An effectively structured LLC owned by an offshore company and a Nevada corporation is the best way to secure investments because together they provide privacy, limited liability and Asset Protection. Assets can be compromised during post-judgment discovery and the federal courts have supremacy over all state courts. Therefore, the best way to protect an asset is to transfer it out of your name and move the title outside the jurisdiction of all U.S. Courts before you face trouble.

Take Steps To Bulletproof Your Assets

Americans ventured into the world of offshore havens a bit late in the game, nearly forty years after the rest of the world had capitalized on the financial advantages of moving assets offshore. Shortly after Americans started moving their assets offshore, the U.S. enacted numerous laws designed to prevent American citizens from accumulating and compounding tax deferred profits. However, it is still legal and quite simple to shelter wealth offshore and to accumulate

tax-deferred profits using offshore companies.

The best way to protect your assets is not to own any. Only if you own an asset is it vulnerable to attack. If you don't own the asset, but merely control the asset, then it is well protected.

OFFSHORE COMPANIES, LIMITED PARTNERSHIPS & A FAMILY LIVING TRUST

Control your assets without owning them and make your property invisible to asset searches. Discover how to use business entities with limited liability and charging order protection to deter frivolous lawsuits and encourage early settlement of serious claims within your insurance policy limits. That is the ultimate goal of maximum asset protection.

Avoid probate court by using a Nevada Triple Limited Partnership to pass your estate interests to your heirs as successor beneficiaries. Trusts can also be used to prevent your Limited Partnership from being used by your creditors to discover your most valuable assets.

THE BRIDGEWAY ASSET PROTECTION PLAN™ GIVES YOU MAXIMUM PEACE OF MIND

The words "Financial Crisis" are heard all too often in today's world. We are bombarded by reports of corrupt executives, downgraded earnings reports and lost nest eggs. We all know good people who have lost jobs, pensions and livelihoods due to the chaotic economic situation in this country today. It is definitely a dangerous and complicated landscape for all of us to live in, care for our families and plan for our futures.

Ask yourself...What is Peace of Mind really worth to you?

A Living Trust is a legal document drafted in conjunction with a Pour-Over Will, a Living Will, Letter of Wishes, Durable Power of Attorney, Physician's Directive and Non-Contestability.

Together they will enable you to avoid probate and allow you, not the courts, to control your assets while you are living. If you become disabled or incapacitated, the Trust will appoint the person you have named to act as your guardian using the durable power of attorney you have authorized.

Your Living Trust completes your estate planning and is the capstone for all your personal needs.

You will receive everything you need to control your Nevada entities, including a complete set of legal documents that define the structure of your entities, its members, limited partners & beneficiaries.

It is quick and very affordable.

Bridgeway Asset Protection Plan™

STEP 1: Form a Management Privacy Trust™ (MPT) to act as the general partner and nominee of your LLLP and LLCs to give you total privacy. This trust does not appear on any public record thereby allowing you discreet control by directing the trustee.

STEP 2: Next form a Wealth Protection Trust™ (WPT) that owns your Nevada Limited Liability Limited Partnership (LLLLP) company as the asset protection foundation.

STEP 3: Next form a Nevada Limited Liability Partnership (LLLLP) that owns your Offshore Company keeping you and your family in complete privacy and fully protected by Nevada's charging order protection and trustee nominee privacy rules.

STEP 4: Next form the Offshore Company (IBC) and have your trustee wire your large "nest egg" investment to an offshore bank beyond the reach of the U.S. court system.

STEP 5: Next have your trustee form inexpensive domestic "privacy" LLCs owned by the IBC that in turn re-titles the ownership name of your home, cars, boat, furniture, vacation property and U.S. investments to these LLCs. Further, have the trustee create promissory liens on all your properties and your home using LLCs to remove any equity showing up on title.

STEP 6: Finally, a Living Trust containing a Physician's Directive, Last Will & Testament, Guardianship, Durable Powers of Attorney, Non-Contestability, Letter of Wishes and Pour-Over Will provisions to secure your family's estate for your heirs to avoid courts and probate.

"In such a litigious society, if you own anything worth having lawyers will find a way to come after you."
